

CAPSTONE BUSINESS INSIGHTS REPORT

Decode Labs E-Commerce Sales & Channel Performance Analysis

TOTAL REVENUE	TOTAL ORDERS	AVERAGE ORDER VALUE
\$1,264,761.96	1,200	\$1,053.97

1. Executive Summary

This final analytics report presents a structured analysis of the e-commerce transactional dataset comprising 1,200 clean entries. The primary objective is to evaluate descriptive statistics metrics, review pricing metrics for outlier discovery, uncover segment trends across unique products, and evaluate marketing acquisition channels to provide data-backed tactical optimizations.

2. Descriptive Statistics & Price Distribution

The total business performance shows strong fundamentals, generating an absolute revenue footprint of **\$1,264,761.96**. The overall price profiling yields a significant average order size of **\$1,053.97**, balanced against a median position of **\$823.62**.

Metric	Quantity	Unit Price	Total Price
Total Count	1,200	\$1,200.00	\$1,200.00
Total Sum (Revenue)	3,535	N/A	\$1,264,761.96
Average (Mean)	3	\$356.41	\$1,053.97
Middle Value (Median)	3	\$364.21	\$823.62
Minimum Value	1	\$11.39	\$11.39
Maximum Value	5	\$699.93	\$3,456.40
Standard Deviation	1.41	\$197.09	\$819.51

Statistical outlier diagnostics highlight severe premium spikes going as high as **\$3,456.40**, significantly shifting away from the lower floor of **\$11.39**. The high standard deviation of **\$819.51** reflects dynamic transaction sizes across categories.

3. Product Performance Breakdown

Product performance shows minimal gap metrics across categories, meaning demand patterns are widespread. **Chairs** lead the portfolio generating **\$195,620.11**, directly challenged by **Printers** securing **\$195,612.61**.

Product Name	Total Revenue
Chair	\$195,620.11
Printer	\$195,612.61
Laptop	\$192,126.56
Tablet	\$186,568.95

Product Name	Total Revenue
Monitor	\$175,651.41
Desk	\$167,459.93
Phone	\$151,722.39
Grand Total	\$1,264,761.96

4. Marketing Channel Performance Analysis

Evaluating acquisition channels proves that organic and paid digital strategies yield high metrics. **Instagram** tops performance with **\$275,285.45**, with direct **Email Marketing** closely behind delivering **\$261,808.55**.

Revenue Contribution by Marketing Channel

5. Strategic Data-Backed Recommendations

- **Scale Social Acquisition Budgets:** Prioritize Instagram allocation based on its leading acquisition metrics.
- **Premium Product Bundling:** Leverage higher cart margins by bundling high-performing Chairs and Printers with lower-performing Phone units to inflate core AOV targets.
- **Re-engage Retention Flows:** Exploit Email's low acquisition overhead to launch target campaigns across the \$410–\$1,579 standard distribution floor.
